## Professional summary

---

Passionate Full Stack Java Developer with expertise in Java, React.js, Node.js, and Express.js, dedicated to building scalable, responsive, and high-performance web applications through clean code and creative problem-solving.

## Education

---

**Chendhuran College of Engineering and Technology**, BE in Computer Science 2022-2026

- CGPA: 8.24 (6 th semester)

## Experience

---

**Frontend Developer Intern**, Visval Carrier Solution (VCS) – Karaikudi. March 2025 – Sep 2025

- Completed a 6-month Frontend Development Internship at Visval Carrier Solution (VCS), where I enhanced the Learning Management System (LMS) frontend using React.js. Earned a certificate of completion for creating responsive, efficient, and user-friendly web interfaces.

## Projects

---

**Learning Management System** 2024 Dec

- Built a **React.js-based frontend** for a Learning Management System that enhanced **user engagement** through responsive layouts, real-time dashboard updates, and seamless navigation across modules.
- Tools Used: React.js,Bootstrap

**Personal PortFolio** 2025 Jan

Built a **personal portfolio website** using **React j.s** to showcase projects, skills, and résumé with a **modern and responsive design**.

Tools Used: React.js,Bootstrap,JavaScript

- CCET-Attendance Spell Management system** Present
  - Developed a Full Stack Attendance Management System** with a responsive and user-friendly interface to simplify student attendance tracking and record management. Focused on accuracy, smooth performance, and automation to reduce manual effort and improve overall efficiency.
  - Tools Used: React j.s,Bootstrap,Node j.s ,Express,MongoDB

## Technical Skills

---

**Languages:** C (Basics),Python (Beginner), Java(Intermediate),MySQL.

**Web Development:** HTML5,Bootstrap,JavaScript,MERN Stack(MongoDB,Express.js,React j.s,Node j.s )

**Core CS Concept:** Object-Oriented Programming(OOP),Data Structures and Algorithm.

**Tools:** Git,GitHub,Vs code ,Intellij Idea, Postman ,Figma,MongoDB Compass ,MongoDB Atlas.

## Achievements & Certificates

---

**LeetCode:** Solved 250+ problems on LeetCode to strengthen my problem-solving skills, algorithmic thinking, and coding efficiency.

**Certificates:** Java Beginner,React js and Python Beginneers,MERN Stack .
