Professional Summary

Passionate **Full Stack Java Developer** with hands-on experience in **Java, React.js, Node.js, and Express.js**, focused on building scalable, responsive, and high-performance web applications using clean code and effective problem-solving skills.

Education

- | | |
|---|-------------|
| Chendhuran College of Engineering and Technology , BE in Computer Science. | 2022 – 2026 |
| • CGPA: 8.24 | |
| Government Higher Secondary School , HSSC, Balasamuthram. | 2022 |
| • Percentage: 70 | |
| St. Mary's High School , SSLC, Thottiyam. | 2020 |
| • Percentage: 83 | |

Experience

- | | |
|--|---------------------|
| Frontend Developer Intern , Visval Career Solution (VCS)– Karaikudi. | Mar 2025 – Sep 2025 |
| • Completed a 6-month Frontend Development Internship at Visval Career Solution (VCS), where I enhanced the Learning Management System (LMS) frontend using React.js. Earned a certificate of completion for creating responsive, efficient, and user-friendly web interfaces. | |

Projects

- | | |
|--|----------|
| Learning Management System | 2025 May |
| • Built a React.js-based frontend for a Learning Management System that enhanced user engagement through responsive layouts, real-time dashboard updates, and seamless navigation across modules. | |
| • Tools Used: React.js, Bootstrap | |
| Personal Portfolio | 2025 Mar |
| • Built a personal portfolio website using React.js to showcase projects, skills, and résumé with a modern and responsive design. | |
| • Tools Used: React.js, Bootstrap, JavaScript. | |
| CCET Attendance Management system | Present |
| • Developed a Full Stack Attendance Management System with a responsive and user-friendly interface to simplify student attendance tracking and record management. Focused on accuracy, smooth performance, and automation to reduce manual effort and improve overall efficiency. | |
| • Tools Used: React.js, Bootstrap, Node.js, Express, MongoDB | |

Technical Skills

Languages: C (Basics), Python (Beginner), Java (Intermediate), MySQL
Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms
Web Development: HTML, Bootstrap, JavaScript, MERN Stack, REST APIs, SQL, Spring Boot (Basics).
Tools: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Figma, MongoDB Compass, MongoDB Atlas.

Achievements & Certificates

LeetCode: Solved 250+ problems on LeetCode to strengthen my problem-solving skills, algorithmic thinking, and coding efficiency.
Certificates: Java Beginner, React.js, Python Beginner, MERN Stack .
